

Duet wizard

To start it click **Duet Wizard** button on the toolbar () or select **Duet Wizard** from **Edit** menu.

Lyrics assigned to Singer 1 are **red**, lyrics assigned to Singer 2 are **blue**, and those that should be sung together are **grey**.

To assign a part of the lyrics to particular singer (or to both singers) select this part in the lyrics window (drag mouse to select the text) and then click **Selection** button next to the singer mode you want to use. Duet Wizard always uses full lines, so if you position the cursor in the middle of the line and then click **Selection**, entire line will be assigned.

From cursor to end buttons allow to assign all song lyrics from the current cursor position to the end of the song to one of the duet modes.

Set all will assign entire song to one of the modes.

After you close Duet Wizard with **OK** you will see that Duet events have been inserted in the text of the song.

Ding Ding Dong
Duet:Singer 1 Time to get up
Time to get up

Please note that you can enter Duet Wizard many times and the current duet assignments will be the starting point for further editing.
