

# Keyboard shortcuts

The easiest way to control the playback is to use **multimedia buttons** on your keyboard. In addition to basic functions extra functionality is provided with CTRL and SHIFT keys:

|                     |                                    |
|---------------------|------------------------------------|
| Volume Up + CTRL    | Key Up                             |
| Volume Down + CTRL  | Key Down                           |
| Volume Up + SHIFT   | Tempo Up                           |
| Volume Down + SHIFT | Tempo Down                         |
| Next Track + CTRL   | Fast Forward                       |
| Prev Track + CTRL   | Rewind                             |
|                     |                                    |
| F2                  | Search for karaoke on the Internet |
| F                   | Full Screen                        |
| Alt+Enter           |                                    |
| -                   | Key Down                           |
| +                   | Key Up                             |
| Ctrl+L              | Load CD                            |
| Ctrl+O              | Load File                          |
| ;                   | Multiplex Left                     |
| '                   | Multiplex Off                      |
| \                   | Multiplex Right                    |
| [                   | Volume Down                        |
| ]                   | Volume Up                          |
| >                   | Next song                          |
| <                   | Previous song                      |
| P                   | Play                               |
| A                   | Pause                              |
| S                   | Stop                               |
| R                   | Record                             |
| Ctrl+P              | Settings                           |
| F3                  | Search playlist                    |
| Page Up             | Rewind                             |
| Page Down           | Fast Forward                       |

Revision #2
